

**(Provisional English Translation)**

**Types of Covered Transactions**

**Type of Management Method**

- ① The method of separating the department or staff conducting the Covered Transaction, and the department or staff conducting the transaction with such Customer (including establishment of information barriers between Deutsche Bank Group Companies.)
- ② The method of amending the conditions or method of the Covered Transaction or the transaction with such Customer
- ③ The method of discontinuing the Covered Transaction or the transaction with the Customer
- ④ The method of properly disclosing to the Customer the possibility that the interests of such Customer may be unjustly impaired in connection with the Covered Transaction (However, such disclosure shall be made to our Customers only if such disclosure does not violate the duty of confidentiality assumed by the Covered Group Company)
- ⑤ The method of management by monitoring, those who will share information or those with a possibility of sharing information
- ⑥ Other methods

(\* ) Note that the types of Covered Transactions and the type of Management Method are not limited to the transactions/management method shown in the below chart. For the management method of each types of Covered Transaction, Compliance Department will instruct the regarded deal team members by pairing more than two of the shown management method or applying a new management method other than shown as below.

(\*\*) 「DB」 refers to Deutsche Bank AG and its parent financial institutions, etc. or subsidiary financial institutions, etc. including group companies of Deutsche Bank Japan such as Deutsche Bank AG Tokyo Branch, Deutsche Securities Inc., and DWS Investments Japan Limited.

	<b>Type of Covered Transaction</b> <b>Management Method</b>	<b>Customer vs. DB</b>  In the case that DB is involved in various positions in an identical transaction which conflicts with the Customer.	<b>Customer vs. Customer</b>  In the case that DB is the advisor and provides financing simultaneously to various Customers which are in a adversary relationship or competing with each other for a particular project at the same time.	<b>DB vs. DB Staff</b>  Transactions where DB and DB Staff conflicts with or competes with DB's interest.
1	When separation of department or staff including establishment of information barriers is required	(1) Any prospective deals/transactions where DB contacts the Customer who is the founder of the listed company proposing financial investment products, while DB underwrites a security from the Customer related to that listed company.
