### ***Summary of work performed***

We conducted our engagement to assess whether the Statement is supported by the documentation prepared by or for management; and appropriately reflected the process the management have adopted in reviewing the system of internal control over financial reporting of the Branch.

The procedures performed were limited primarily to inquiries of branch personnel and the existence of documentation on a sample basis that supported the process adopted by the Branch Management Board.

SLSAE 3050 (Revised) does not require us to consider whether the Statement covers all risks and controls or to form an opinion on the effectiveness of the Branch's risk and control procedures.

The procedures selected depend on our judgement, having regard to our understanding of the nature of the Branch, the event or transaction in respect of which the Statement has been prepared.

We believe that the evidence we have obtained is sufficient and appropriate to provide a basis for our conclusion.

### ***Our conclusion***

Based on the procedures performed, nothing has come to our attention that causes us to believe that the Statement is inconsistent with our understanding of the process the Branch Management Board has adopted in the review of the design and effectiveness of internal control over financial reporting of the Branch.
